

Sujata Vilas Kagle

FULL-STACK DEVELOPER

☎ 6363656840 | ✉ kaglesujata@gmail.com | in LinkedIn | GitHub | 📍 Bangalore, India

OBJECTIVE

Full-Stack Developer with 1.4 years of experience in developing scalable web and mobile applications using React.js, Vite.js, Next.js, Node.js, NestJS, and Flutter. Proficient in microservices architecture, RESTful APIs, and real-time data pipelines using Kafka. Skilled in databases such as MongoDB, MySQL, and PostgreSQL, and experienced with AWS cloud services. Strong collaborator with a focus on delivering robust, business-driven solutions and user-centric designs across both web and mobile platforms.

TECHNICAL SKILLS

Frontend: React.js, Next.js, Vite.js, HTML, CSS, JavaScript
Backend: Node.js, NestJS, Express.js, Microservices Architecture, REST APIs, Kafka
Mobile Development: Flutter (GetX Architecture)
Databases: MySQL, MongoDB, PostgreSQL
Dev Tools: GitHub, Postman, Docker, Visual Studio Code, Android Studio
Cloud & Infra: AWS (EC2, S3), Terraform, OpenSearch, Typesense
Other Skills: Responsive Web Design

PROFESSIONAL EXPERIENCE

- | | |
|---|----------------------|
| Full Stack Developer
<i>Outdid Unified Pvt Ltd, Bangalore, India</i> | Oct 2024 – Present |
| <ul style="list-style-type: none">• EV Charging Platform: Developed a scalable EV charging management system with secure role-based access, dynamic charger assignment, and real-time monitoring through an Admin Dashboard. Improved operational efficiency and analytics while collaborating in a 4–6 member Agile team using Git.• Water Purifier Platform: Designed and developed a complete IoT-based ecosystem with two mobile applications — one for end-users and another for technicians. Built using Flutter, Node.js, Express.js, and MongoDB, deployed with Docker, and integrated secure Razorpay payments.• Integrated Bluetooth Classic/BLE for device setup and used MQTT for live data communication. The End-user App allows users to view purifier parameters such as tank level, TDS, and pressure in real time with smart alerts and analytics. The Technician App handles installation and service tasks, auto-assigned via the Admin Panel.• Developed the Admin Panel using React.js and Node.js to manage users, subscriptions, technicians, and purifier data. Contributed to backend API development and IoT data integration with a 3-member team. | |
| Software Developer Intern
<i>MindStay Technology Pvt Ltd, Bangalore, India</i> | July 2024 – Aug 2024 |
| <ul style="list-style-type: none">• Developed React.js and Node.js modules for a job and training portal (SISO).• Built job posting features, responsive UI, and integrated RESTful APIs for data handling. | |

EDUCATION

BLDEA's Dr P G Halakatti College of Engineering and Technology, Vijayapura <i>B.E in Electronics and Communication</i>	May 2023
K.L.E Society's Basavaprabhu Kore Science College, Chikodi <i>Pre-University Course (PUC)</i>	2019
Shantisagar Vidyapeeth English Medium School, Ainapur <i>Secondary School Leaving Certificate (SSLC)</i>	2017

PROJECTS

EV Charging Management System | React.js, Node.js, MongoDB
Water Purifier Rental Service | Flutter, Node.js, MongoDB, Razorpay, Bluetooth Classic/BLE, MQTT
SISO - Job & Training Portal | React.js, Node.js
