

Gunavathi S

SOFTWARE TEST ENGINEER

Bengaluru | gunavathissamy@gmail.com | 7603880321 | linkedin.com/in/gunavathisaravanasamy

OBJECTIVE

Detail-oriented Software Test Engineer with 1.8 years of experience in manual testing and working knowledge of automation tools like Selenium, REST Assured, Postman, and JMeter. Skilled in Python, Agile methodologies, and API/performance testing. Seeking a Software Tester role to build scalable testing solutions and ensure high-quality software delivery.

TECHNICAL SKILLS

- **Manual Testing:** Test Case Design and Execution, Functional, Regression, Smoke Testing, Test Documentation
- **Automation Testing:** Selenium (with Python)
- **API Testing:** Postman
- **Performance Testing:** JMeter
- **Testing Methodology:** Agile

PROFESSIONAL EXPERIENCE

Software Test Engineer | Outdid Unified Pvt Ltd, Bangalore, India April 2024 – Present

- **Manual Testing:** Executed comprehensive manual testing of the EV app and admin panel, writing detailed test cases for both web and mobile platforms to ensure full functional coverage.
- **Performance Testing:** Conducted performance testing of the admin panel using JMeter, analyzing system behavior under load and identifying bottlenecks.
- **UI Automation:** Developed and executed automated functional test scripts for the admin panel using Selenium WebDriver with Python, focusing on core functionalities and workflows.
- **API Testing:** Performed manual API testing using Postman.
- **Bug Tracking Collaboration:** Utilized Jira for bug tracking, logging defects, and coordinating with the development team for issue resolution.
- **Cross-Platform Testing:** Tested company-owned demo web and mobile applications, ensuring consistent performance and functionality across different devices and platforms
